

Gen. Funston Expects Clash Between Villa And U.S. Troops Soon

Colonel Dodd's Column Within Thirty Miles of Villa's Forces--Deportation of Mexicans From U. S. Expected

U.S. CAVALRY REACHES MORMON COLONY

San Antonio, March 18. (By United Press)—While General Funston at army headquarters here has not had any direct word from Colonel Dodd, he believes the information given by General Gaviro, Carranza's commandant at Juarez, locating Dodd's flying cavalry column to be as Casas Grandes is correct. Villa, according to the best information at Fort San Houston, is 30 miles south of Casas Grandes in the Galeana district.

His whereabouts, General Funston, believes, indicates a clash between the United States troops and Villa bandits within a short time. Whether the American cavalry will come into immediate conflict with Villa forces largely depends on the bandit chief's policy. The cavalry division of the main division under General Pershing is within supporting distance of Colonel Dodd's forces and it is possible that a junction of the two armies will take place Sunday at Casas Grandes.

The march of Col. Dodd's army from Hachita, New Mexico to Casas Grandes, a distance of slightly over 100 miles, is said by Gen. Funston to be one of the fastest records held by American soldiers. Funston said that small bodies of men had made marches of great length in a short time, but that a large force maintaining an average speed of 30 miles a day through desert country is most remarkable.

Wireless reports from Gen. Pershing today gave Gen. Funston full particulars concerning the disposition of the troops in the main column. No reports of casualties nor reports of conflicts with Mexicans were made.

San Antonio, March 18. (By United Press)—Colonel Dodd's column is now within 30 miles of Villa's forces in the Galeana district according to latest information at General Funston's headquarters. An engagement if Villa desires to make a stand, may occur within a few days. Wholesale deportation from Texas, New Mexico, Arizona and southern California points of Mexicans believed to be affiliated with Diaz and Villista movement was today reported as impending.

It is known that the activities of 24 prominent Mexicans in San Antonio composed of the old Huerta cabinet, governors of Mexico under the old regime and army officers under Huerta and Diaz have been under investigation for the past week and action is expected very shortly. The activities of this group is considered to be treason to the United States government. There is said to be more than 400 officers of the old Diaz and the Huerta armies.

Officers of the department of justice, United States Marshall's office, United States district attorney's office are co-operating in the work of investigation and scores are under surveillance.

Danger to 400 American Mormon colonists at Colonia Dublan was removed today by the arrival of a portion of Colonel Dodd's cavalry column there. Dublan is south of Casas Grandes, south of the border. The colonists' 10th cavalry regiment reported to have been the first to enter Mexico south of Hachita early Thursday and are understood to have composed the Dublan relief party.

Lead by Mormons who had left their families in Dublan Dodd's horsemen were in saddles almost continuously for 60 hours. Spurred on by reports that the colonists were in danger of murderous Villista troops covered 100 miles of the most

difficult country in Chihuahua on forced marches that will go down in the annals of army history. The column took advantage of the knowledge of the Moron scouts who knew every water hole and trail in the land.

Aeroplane's Guide Column
El Paso, Texas, March 18. (By United Press)—Relentlessly pursuing their quarry the crack troops of the United States army were well along on Villa's tracks today. Guided by aeroplanes, the two divisions of the American punitive expedition were entering the heart of an unfriendly district filled with Villa sympathizers.

Hard fighting was not expected, however, as the American forces greatly outnumbered any outlaw bands in the immediate vicinity. Colonel Dodd's cavalry column making forced marches, was expected to pass Janos, Chihuahua, 100 miles south of Hachita, New Mexico, which the troops left early Thursday. General Pershing with the main column was skirting Guzman obeying Carranza's request to avoid Mexican cities and towns where the hatred of "gringos" might result in Mexican uprisings.

Villa was reported from 150 to 200 miles further south. Additional troops reported to be entering Mexico may eventually bring the total number in the chase to 10,000.

Situation Becoming Critical
San Antonio, March 18.—Terror is the powder barrel of northern Mexico. Casas Grandes may be the match. In both cities Villa sentiment is strong. A clash between Villa and the forces of General Pershing now nearing the outskirts of Casas Grandes or between these forces and Villa sympathizers would, in the opinion of refugees who have arrived here from Terreon, cause the explosion which both the Carranzistas and the United States are unable to forestall. At Fort San Houston it is conceded that the situation is rapidly reaching a critical stage.

Asks Use of Mexican Railways
—Washington, March 18. (By United Press)—The United States has asked or will ask for permission for the United States expeditionary force to use Mexican railways for the transportation of supplies. It was learned on highest authority today. The request was made to the war department by General Funston.

His Aeroplane will Find Villa

CAPT. BENJAMIN D. FOULKE.

Capt. Benjamin D. Foulke, now at San Antonio, is preparing for the flight into Mexico to find Villa for Gen. Funston's troops.

Capt. Foulke, has ten officers under him who comprise the "fliers" of the squadron, and the eighty troops completing the detachment. Most of them are veteran aviators. Several participated in the fight of the First Aero Squadron from Fort Sill, Okla. last November, when the squadron was transferred to Fort Sam Houston.

The squadron uses biplanes with motors of from 20 to 100-horse power. Each machine weighs about 1250 pounds and will carry 150 pounds, or an observer with each pilot.

JOINT DELIVERY SYSTEM WANTED HERE BY GROWERS

E. H. Newwood interviewed Merchants Body Will be Brought to Clearfield About Establishment of System.

E. H. Newwood, of Angola, Ind., was in Clearfield Thursday and Friday interviewing the growers relative to the establishment of a joint delivery system here. About twelve local growers attended the meeting in the Chamber of Commerce rooms yesterday morning and expressed their willingness to support such a system.

These systems have been in successful operation for several years in many western districts and the plan was highly endorsed in letters received here from merchants in those territories.

Mr. Newwood came to Clearfield at the invitation of J. S. Deaton to investigate the possibilities of the success of the joint delivery system. Mr. Newwood is of the opinion that it is some one with experience and ability would establish the system here, it would be a success and would meet with the approval of all the growers.

GRANGE WANTS TAX INCREASE PLACED ON BIG BUSINESS

Budget System For Appropriations Urged--Nation Wide Prohibition Wanted

Grange Wants Larger Appropriation For County Schools for Dirt Roads and County Agricultural Fairs.

The Pennsylvania State Grange in session at Jersey Shore, has outlined the course to be taken by the agricultural organization in the coming campaign when its legislative committee drew up a platform endorsing increased taxation on corporations and "big business" larger appropriations for county schools of higher learning as compared with township high schools. A budget system for appropriations is urged as an anti-trusting law and an act to prohibit clubs from serving liquors.

The national platform contains plans on nation wide prohibitions, completion of the denatured alcohol legislation, revision of the oleomargarine legislation along lines proposed by the national dairy union, conservation of national resources and an increase in the parcel post limit.

This platform will be sent immediately to all members of the grange with a plea of support at the May primaries. On the committee which drew up the resolutions are John A. McSparran, President, State Grange; William J. Casey, Catechism; Leonard Rhoads, Centre Hall; Allan D. Miller, Susquehanna, and E. J. Tuttle, Wellsboro.

New means of taxation are taken up by the grangers after the state's financial situation is reviewed. Four means of raising revenue are put forward.

"First: There is now no excuse for the exemption of manufacturing corporations from taxation especially in view of the desperate abuse of the word 'manufacturing' in relation to taxation.

"Second: A tax on coal, gas and oil should be laid and collected at the source, and we believe that the taxes derived from these natural sources should be converted into a permanent fund for the improvement of our roads.

"Third: Many states are adopting new systems of progressive graduated taxation upon incomes and inheritances, but our constitution forbids the laying of a tax in that way.

"Fourth: Corporations of all kinds should pay their fair share of the costs of government."

The grangers charge that while the farmer is given "sollicitous attention" by the state administration all recent economic in government have been at the expense of the country districts.

CAMP FIRE GIRLS CELEBRATE THEIR 4TH ANNIVERSARY

Girls Are Busy Receiving Food and Clothing For Thousands of War Orphans

Chance Presented Today for Any Girl to Become a Fairy Godmother By Going to Campfire Headquarters.

New York, March 18. (By United Press)—Here's a chance today for any little American girl to be a fairy godmother for \$2 a week. This is the fourth anniversary of the national organization of the Campfire Girls and in every city and town in the country today they are celebrating it by enrolling fairy godmothers and godfathers too, for European war orphans. All you have to do to be a fairy godmother or father is to go to the Campfire Girls' headquarters nearest you, or write to them and tell them about it. You will be given a golden or goddaughter and the goddess or godfather will be kept warm and well supplied with things to eat for seven days and besides all that, will write you a letter and tell you he would be glad to have you for a godfather or godmother.

You may repeat the experience as many weeks as you please. At the Campfire Girls' national headquarters, 461 Fourth Avenue, New York the girls are busy today receiving food and clothing from all over the country to be sent to the war orphans in all the warring countries. Many of these little boys and girls in the fighting countries, some of them scarcely old enough to toddle, are found wandering through the fields or lying beside the roads, half clad, hungry and homeless. Their fathers have been killed or are still fighting and their mothers, in many cases, have died of starvation or been taken away by the soldiers. Many little girls and boys, beginning today, will make up bundles of clothing and toys and other things and send them to the Campfire Girls who will send them to Europe. Whatever the name of the country written on each package, to the war orphans of that particular country will the package go.

The Campfire Girls in New York are going to have a big party tonight, at which they will not only have a good time to celebrate their birthday, but will also work getting the war relief packages together.

NORTH DAKOTA IS FOR LAFOLETTE FOR PRESIDENCY

Senator is Unopposed For Republican Nomination in North Dakota

Expected to Receive First Formal Indorsement for Republican Presidential Nomination in Primaries to Be Held Next Tuesday.

Washington, March 18.—Robert M. LaFollette, United States senator from Wisconsin, is expected to receive his first formal indorsement for the Republican presidential nomination in the North Dakota primaries next Tuesday. The Wisconsin senator has not been waging any active campaign for the nomination, in the light that Cummins, Fairbanks, Weeks and several of the other Republican aspirants have been doing out he is none the less a candidate. There is a factional fight among the Republicans of Mr. LaFollette's home state, from which there arises a possibility that the senator may not receive the unequalled support of the Wisconsin delegates to the national convention. In this contingency, it has probably been figured out by Mr. LaFollette and his political managers, that it would be a wise move in the direction of "preparedness" to have instructed delegates from some other state in order to make certain that the name of the Wisconsin senator will be placed before the Chicago convention. The selection naturally fell upon North Dakota, where LaFollette's strength was abundantly manifested in the political skirmishing that preceded the national conventions of four years ago.

As Senator LaFollette is the only Republican candidate who has filed a petition in North Dakota, with the exception of Henry D. Estabrook, of New York, it is regarded as a practical certainty that the state's delegates to the Chicago convention will be instructed for the Wisconsin senator. Some surprise has been expressed that Senator Cummins did not file a petition, since his lieutenants have been working diligently to capture all of the neighboring states. The generally accepted explanation is that the Iowa senator has outwitted into some arrangement with Senator LaFollette's friends by which the Iowa candidate has agreed to leave LaFollette an unobstructed path in North Dakota. The Democratic delegates from North Dakota will be instructed unanimously for Wilson's re-nomination.

THE PRINCE OF PILSEN

"The Prince of Pilsen" is better known universally than any other musical production of American author. It has been played in England, Ireland, Canada, Australia, Germany, Hungary, Italy, Mexico and Brazil. It is only rival for international success is "The Bell of New York," but the latter piece was not one of the foreign success where "The Prince of Pilsen" has been successful. An enormous success with John W. Kanter, the original of the part of "The Prince" in its old role, will be directed at the Opera House on Thursday, March 23.

Musing on the Mouse right now is decidedly an unhealthy occupation.

Fighting a man who is physically deficient is hardly as compared with stooping to strife with a mouse.

The Yannigans and Regalies are at it again, this time in the sunny South, and the good old town will be with us again.

If just plain ignorance is bliss, what ecstatic a relative will describe the transcendent wisdom which an occasional glorified fool displays?

Senator Penrose says he is for an unimpaired delegation to the National convention. The senator doubtless means that the voters may safely leave the nomination of the delegates to him.

YOUR KIND ATTENTION.

When the finance committee of the County Fair Association approach you, give them a hearing. A well conducted fair, such as is projected for Clearfield, supported by the Granges, the County Agricultural Society, and the financial and business institutions of Clearfield, will help both the town and the surrounding country. Clearfield needs just such an institution and the only way to secure it is to help it. Committees from both the farming districts and the town will solicit subscriptions to the bonds to purchase and improve the proposed fair grounds. A guaranty fund will be asked for a committee of Clearfield citizens, headed by George L. Newbold.

THE WINDOW TRIMMING CONTEST.

Have you ever observed that the merchant who gives most attention to window and window trimming is the merchant whose advertisements you look for first in the or any other newspaper? And has the same merchant worked both ways? That is, has he put more thought and work to the appearance of his store front than to the advertisement in the newspaper?

Both propositions are true, here and everywhere. John Wanamaker, perhaps the greatest retail merchant in the world, considers his newspaper space and his window display space a far bigger asset than all the rest of his business. Anything else he can dispense with, but advertising, newspaper and window display, he cannot have.

The merchant who does not hitch his wagon to his local newspaper together as a business and his store is not getting a lot of money that is just as willing to be spent in his store as in any other store, if he could but put these indispensable assets to work for him.

The coming window trimming contest will demonstrate the value of window space better than any other method we can think of. It will arouse the interest of the public in the silent salesman of the retail trade, and no merchant who enters it can possibly lose a penny of expense that he goes to in making his store front attractive.

SAN DIEGO EXPOSITION OPENS WITH NEW NAME

Re-Christened today "Panama-California International Exposition"

San Diego, Cal., March 18. (United Press.)—The San Diego exposition, now in its second year, was rechristened at noon today. "The Panama-California International Exposition" was the new name given to the fair. The change was made by a resolution of the board of directors, which was passed unanimously. The new name was announced by the president of the exposition, who said that the change was made to better reflect the scope and character of the fair. The exposition is now in its second year, and has been a great success. It has attracted a large number of visitors, and has been a great help to the city of San Diego. The new name will help to attract even more visitors, and will make the exposition a more important part of the city's life.

SARAH BERNHARDT

The Divine Actress

"JEANNE DORE"

11:30 and 8:00

Jeanne Dore is a story of a girl who is in love with a prince who is captured by a witch and taken to a castle in the forest. The girl rescues the prince and they escape together. The story is full of adventure and romance, and the music is beautiful. It is a perfect example of the best of the musical comedy genre.

EAT LESS MEAT
IF BACK HURTS

When the back hurts, it is a sign that the body is out of balance. Eating less meat can help to restore balance and relieve the pain. Meat is a heavy food, and eating too much of it can lead to indigestion and back pain. By eating less meat, the body can become lighter and the back can feel better.

SCIENTISTS WORKING TO EXTERMINATE FIELD MICE

Berne, Switzerland, March 18. (By United Press)—German scientists are concentrating their minds on methods of exterminating field mice. As a result of the mild winter the mice have multiplied enormously and expert agriculturists say they threaten to damage the next crop seriously. In view of the enormous importance of a full field, the government took the alarm immediately.

Did ever a busy preacher of the gospel receive such a strange command? There did not seem to be any reason or common sense in it, but rather an interference with a great soul saving work. Might not Philip seem justified in saying, as Nehemiah once did, "I am doing a great work, so that I cannot come down?" (Neh. VI, 3). It was an evil spirit who was seeking Nehemiah, but it was the risen Christ who sent him to Philip because he saw a man of Ethiopia returning from Jerusalem without having heard the gospel, although the apostles were at Jerusalem. It is certainly most interesting to see the measure of trying the spirits to see whether they are of God. It is John VI, 12, the necessity of always making plain the way of life in Christ lest some hungry seeking soul may go away without knowing how to be saved and the necessity of prompt obedience when God speaks, no matter how unreasonable it may seem to us.

We are glad to read that Philip arose and went (verse 27). If he had any common sense to consult he would probably have been hindered; but, like Samuel, he was a man of God and had an ear for God and a willing heart. SUNDAY SCHOOL

Lesson XII.—First Quarter. For March 19, 1916.

THE INTERNATIONAL SERIES.

Text of the Lesson, Acts viii, 4-17. Memory Verses, S. 6—Golden Text, Acts viii, 20, 1. c.—Commentary Prepared by Rev. D. M. Stearns.

The persecution of the saints, which began with the murder of Stephen, continued under Saul as a leader or at least a very active persecutor, for he is said to have entered every house and committed men and women to prison. The persecution was so great that it is said that all the believers, except the apostles, were scattered abroad through Judea and Samaria, but they went everywhere preaching the word, and thus God made the wrath of man to praise Him (verses 1-4; Ps. lxxvi, 10). Philip, the second of the seven Spirit filled men who were chosen to serve tables, now comes to the front as a preacher and is the prominent worker in the rest of this chapter. First we see him preaching Christ in the city of Samaria and working miracles, the people giving heed with one accord so that there was great joy in that city, many men and women believing the words of Philip concerning Jesus Christ and the kingdom of God and confessing the same by baptism (verses 5-8, 12).

There was a man in Samaria who had been bewitching and deceiving the people by sorcery, drawing people to himself as a great man, but when he saw greater works wrought by Philip he naturally became interested and professed himself a believer and was baptized. But Peter and John, having come from Jerusalem to help in the good work, found him out when he offered them money if they would give him the power of the Holy Spirit (verses 9-25). The gifts of God cannot be bought, nor does a true messenger of Christ ever seek any honor or glory for himself, for the Lord Jesus never sought His own will nor His own glory and told the people that they could not believe unless they sought honor from God only (John v, 30, 44; vi, 38; viii, 50). The Holy Spirit never honors any mere man, but through men honors Jesus Christ.

We must cease from men and see no man save Jesus only (Isa. li, 22; Mark ix, 35). When Peter and John had helped the believers in Samaria they also preached the word of the Lord in many Samaritan villages as they journeyed back to Jerusalem (14 to 17 and 25). The Lord Jesus had said before His ascension that when they received the power of the Holy Spirit they would be His witnesses not only in Jerusalem and Samaria, but unto the uttermost part of the earth (Acts i, 8). The first part was being fulfilled, but some of the ends of the earth have not heard yet after nearly 1,900 years. How great is His patience! In the power of God, manifest in the words and works of the apostles and evangelists we have seen something of the interest of heaven in the work of giving the good news to men. We have also seen the ministry of angels in taking Peter and John out of prison and sending them to preach in the temple (chapter v, 19, 20, and now, while Philip is busy in the midst of this great work in Samaria, a messenger from heaven is sent to him to tell him to leave it all and go away down to the desert road from Jerusalem to Gaza, but seemingly without giving any reason as to why he should do this.

Did ever a busy preacher of the gospel receive such a strange command? There did not seem to be any reason or common sense in it, but rather an interference with a great soul saving work. Might not Philip seem justified in saying, as Nehemiah once did, "I am doing a great work, so that I cannot come down?" (Neh. VI, 3). It was an evil spirit who was seeking Nehemiah, but it was the risen Christ who sent him to Philip because he saw a man of Ethiopia returning from Jerusalem without having heard the gospel, although the apostles were at Jerusalem. If he had any common sense to consult he would probably have been hindered; but, like Samuel, he was a man of God and had an ear for God and a willing heart. It is certainly most interesting to see the measure of trying the spirits to see whether they are of God. It is John VI, 12, the necessity of always making plain the way of life in Christ lest some hungry seeking soul may go away without knowing how to be saved and the necessity of prompt obedience when God speaks, no matter how unreasonable it may seem to us.

We are glad to read that Philip arose and went (verse 27). If he had any common sense to consult he would probably have been hindered; but, like Samuel, he was a man of God and had an ear for God and a willing heart. It is certainly most interesting to see the measure of trying the spirits to see whether they are of God. It is John VI, 12, the necessity of always making plain the way of life in Christ lest some hungry seeking soul may go away without knowing how to be saved and the necessity of prompt obedience when God speaks, no matter how unreasonable it may seem to us.

The Proof

DON'T accept claims or opinions. Every man selling an automobile will tell you his car can be run at low cost.

He'll tell you this because he knows and you know that gasoline, oil and tires are costing more and more all the time. He knows and you should know that the operating cost of any automobile during five years' time is worth your careful consideration.

We don't give you any guesswork. We tell you what we know. We state the facts and figures—proved and verified figures. Here they are:

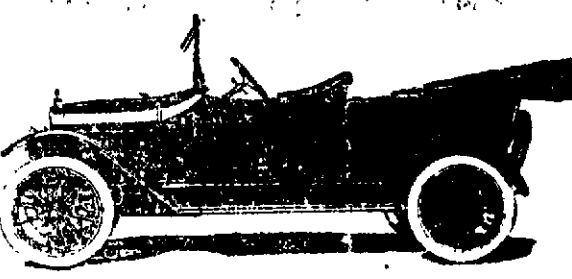

Maxwell World's Non-Stop Record Facts	
Miles without a motor stop	22,023
Average miles per day (44 days)	500.6
Miles per gallon of gasoline	21.88
Miles per gallon of oil	400
Average miles per tire	9,671

Most Maxwell owners get even better results than these but we are just giving the actual figures set when the Maxwell stock touring car broke the World's Motor Non-Stop Record.

When you get your Maxwell you can be sure it will give you economical service—probably far more economical than these figures indicate. But to be sure that you can get your Maxwell, ORDER NOW.

We have a few here but don't know when we can get more. Freight cars are scarce and the Maxwell factories, in spite of doubled production, are away behind in shipments.

OLD CHICAGO CARRY BURNS UP CARRIAGES BOAT LINE

Chicago, March 17. (By United Press)—Discouraged by taxicab competition and unable to sell his old fashioned cabs and carriages even for a song, Abel Deming poured kerosene upon them and burned them up. Deming has been rich and poor several times since he came here during the World's fair. In 1893 Deming was flat broke except for his horses. He sold them, came to Chicago and, working at odd jobs, saved his money and bought a horse and cab. The horse and cab became a lively stable and then fortune smiled and Deming rubbed elbows with John W. Gates and John Drake. Then the bubble burst when the fair was over and the race course saw Deming no more. A few years passed and Deming still carried passengers through the streets of Chicago until one day a sporting automobile whizzed past his cab. At the age of 71, Deming is left with but a meager part of the money he once had. He tried to sell his carriages, offering to part with an outfit worth \$25,000 new, for \$5,200 but there were no takers, so Deming drew his carriages from their storage shed, poured a can of gasoline over them and touched a match to the relic of the heyday of the horse.

COLLEGE GRAPPLERS IN TITLE BOUTS.

Princeton, N. J., March 16.—In the Princeton University gymnasium tomorrow night will take place the first of the contests to decide the Intercollegiate Wrestling Association championships. The finals will take place Saturday. The colleges represented in the tournament will include Pennsylvania, Columbia, Cornell, Princeton and Lehigh. William Riggs of Philadelphia and Coach Lewis, of Pennsylvania State College have been elected to referee the matches.

TODAY'S ODDEST STORY LARGE CROWD ATTENDS "THE BIRTH OF A NATION"

Saturday, O., March 16. (By United Press)—To while away hours, Sunday's frame are wearing hammocks and bed spreads of straw. They got fine practice during winter months by weaving straw. Each frame made one for his wife. Now each is resolved to make a hammock and bed spread for his home. Five pounds of straw will make a hammock seven feet long and four feet wide. Weaving frames were invented by the firemen.

They are called for Miran's Opening announcement. Both Men's and Women's departments are nearing completion.

SATURDAY EVENING, MARCH 18, 1916.

Musing on the Mouse right now is decidedly an unhealthy occupation.

Fighting a man who is physically deficient is hardly as compared with stooping to strife with a mouse.

The Yannigans and Regalairs are at it again, this time in the sunny South, and the good old town sends them with us again.

If just plain ignorance is bliss, what ecstatic a relative will describe the transcendent wisdom which an occasional glorified fool displays?

Senator Penrose says he is for an unimpaired delegation to the National convention. The senator doubtless means that the voters may safely leave the nomination of the delegates to him.

YOUR KIND ATTENTION.

When the finance committee of the County Fair Association approach you, give them a hearing. A well conducted fair, such as is projected for Clearfield, supported by the Granges, the County Agricultural Society, and the financial and business institutions of Clearfield, will help both the town and the surrounding country. Clearfield needs just such an institution and the only way to secure it is to help it. Committees from both the farming districts and the town will solicit subscriptions to the bonds to purchase and improve the proposed fair grounds. A guaranty fund will be asked for a committee of Clearfield citizens, headed by George L. Newkirk.

THE WINDOW TRIMMING CONTEST.

Have you ever observed that the merchant who gives most attention to window and window trimming is the merchant whose advertisements you look for first in the or any other newspaper? And has the same merchant worked both ways? That is, has he put more thought and work to the appearance of his store front than to the advertisement in the newspaper?

Both propositions are true, here and everywhere. John Wanamaker, perhaps the greatest retail merchant in the world, considers his newspaper space and his window display space a far bigger asset than all the rest of his business. Anything else he can dispense with, but advertising, newspaper and window display, he cannot have.

The merchant who does not hitch his window to his local newspaper together as a business will find himself not getting a lot of money that is just as willing to be spent in his store as in any other store, if he could but put these indispensable assets to work for him.

The coming window trimming contest will demonstrate the value of window space better than any other method we can think of. It will arouse the interest of the public in the silent salesman of the retail trade, and no merchant who enters it can possibly lose a penny of expense that he goes to in making his store front attractive.

SAN DIEGO EXPOSITION OPENS WITH NEW NAME

Re-Christened today "Panama-California International Exposition"

San Diego, Cal., March 18. (United Press.)—The San Diego exposition, now in its second year, was rechristened at noon today. "The Panama-California International Exposition" was the new name given to the fair. The change was made by a resolution of the board of directors. The new name was chosen to reflect the fact that the exposition is now a truly international affair, with exhibits from many countries. The change was made to attract more attention to the fair and to show that it was a truly international event.

SCIENTISTS WORKING TO EXTERMINATE FIELD MICE

Berne, Switzerland, March 18. (By United Press)—German scientists are concentrating their minds on methods of exterminating field mice. As a result of the mild winter the mice have multiplied enormously and expert agriculturists say they threaten to damage the next crop seriously. In view of the enormous importance of a full field, the government took the alarm immediately.

Did ever a busy preacher of the gospel receive such a strange command? There did not seem to be any reason or common sense in it, but rather an interference with a great soul saving work. Might not Philip seem justified in saying, as Nehemiah once did, "I am doing a great work, so that I cannot come down?" (Neh. xi. 3). It was an evil spirit who was seeking Nehemiah, but it was the risen Christ who sent him to Philip because he saw a man of Ethiopia returning from Jerusalem without having heard the gospel, although the apostles were at Jerusalem. It is certainly most interesting to see the measure of trying the spirits to see whether they are of God. It is John ix. 1, 2, the necessity of always making plain the way of life in Christ lest some hungry seeking soul may go away without knowing how to be saved and the necessity of prompt obedience when God speaks, no matter how unreasonable it may seem to us.

We are glad to read that Philip arose and went (verse 27). If he had any doubts to consult he would probably have been hindered; but, like Samuel, he was a man of God and had an ear for God and a willing heart. We are glad to read that Philip arose and went (verse 27). If he had any doubts to consult he would probably have been hindered; but, like Samuel, he was a man of God and had an ear for God and a willing heart. It is certainly most interesting to see the measure of trying the spirits to see whether they are of God. It is John ix. 1, 2, the necessity of always making plain the way of life in Christ lest some hungry seeking soul may go away without knowing how to be saved and the necessity of prompt obedience when God speaks, no matter how unreasonable it may seem to us.

SCIENTISTS WORKING TO EXTERMINATE FIELD MICE

Berne, Switzerland, March 18. (By United Press)—German scientists are concentrating their minds on methods of exterminating field mice. As a result of the mild winter the mice have multiplied enormously and expert agriculturists say they threaten to damage the next crop seriously. In view of the enormous importance of a full field, the government took the alarm immediately.

Did ever a busy preacher of the gospel receive such a strange command? There did not seem to be any reason or common sense in it, but rather an interference with a great soul saving work. Might not Philip seem justified in saying, as Nehemiah once did, "I am doing a great work, so that I cannot come down?" (Neh. xi. 3). It was an evil spirit who was seeking Nehemiah, but it was the risen Christ who sent him to Philip because he saw a man of Ethiopia returning from Jerusalem without having heard the gospel, although the apostles were at Jerusalem. It is certainly most interesting to see the measure of trying the spirits to see whether they are of God.
